### Virtual Meeting 7:30, Tuesday, August 11<sup>th</sup> Club Photos from Coco View, Roatan Honduras

Many of us saw the photo's posted by John Yavorsky on Facebook while he was at Coco View. They were absolutely awesome! From seahorses to eagle rays, the marine life was fabulous. The abundance of marine life was so vibrant, that this is one of those dive venues that divers go back to again and again. In fact, one club member has had ground hog day over 30 times.

John will bring the trip to life with his presentation this month of the club trip to Roatan. Meanwhile the **2021 Trip Club to Roatan** was moved back a month to Saturday, April 17th to Saturday, April 24th, 2021. This gives us more time to get a protection from the virus. If you're interested, please let me know ASAP as we already have many of our allotted slots taken. Contact me at [1969.diver@gmail.com](mailto:1969.diver@gmail.com).

### Explorer's DC: Treasurer Still Needed

The Officers of the Explorers Dive Club will continue to try to keep the interest in the Club and diving by giving virtual presentations during the coming months. Once the virus threat has diminished, we will again have meetings and plan adventures for our members. In the meantime, the Club needs a new Treasurer. Melissa Bellamy has handled the duties for many years and will assist the new treasurer until he or she is comfortable. The duties are not strenuous, particularly since we are not collecting dues and had few or no expenses expected in the near term. For the time being, membership in the club will be continued without dues assessments. Once we can resume meetings, we may resume dues collections - \$25 per year for singles and \$35 for families or waive them for the year.

Stay safe and stay healthy!
